Message

As the Member of the Legislative Assembly of British Columbia for Richmond-Steveston, it is my pleasure to offer warmest congratulations to the North American Jimei Alumni Association (NAJAA) on the occasion of the installation of your new board on your 5th anniversary.

I understand Mr. Tan Kah Kee, a renowned Chinese businessman, community leader and philanthropist, who set up funds to support education and founded a number of institutions including the Jimei schools. Since it was formed five years ago, the NAJAA has been supporting Jimei alumni who reside in the United States and Canada, with the Association's office based in British Columbia. As well, the NAJAA is also an active in contributing to build harmonious community by working with other groups, for which I commend the Association board of directors and volunteers.

Please accept my best wishes for a successful anniversary and installation event and your continued success into the future.

Sincerely,

John Yap, MLA
Richmond-Steveston
